

The impact of the Level 5 Certificate in Primary School Physical Education Specialism

Qualified Teachers

Candidates

Coaches or in-school support staff with a clear brief for PE

{ All delegates, bar one independent school, used the Primary PE and School Sport Premium to pay for the course }

Impact to the candidates

(Significant **increase in confidence and ability** to **teach and manage** PE and school sports provision in schools)

Development of **teaching skills**

Increased ability to **CONTRIBUTE** to a wider agenda in schools

Clear **progression** in ability to intervene and bring about improvement in teaching

INCREASED

✓ **KNOWLEDGE**
✓ **CONFIDENCE &**
✓ **EFFECTIVENESS**

in physical education role in school

Develop sophisticated curriculum programmes for the whole school

“

“The qualification has helped me look at what our school has in place, what we needed to do to improve and then how we were going to make the improvements. It has also built my confidence in the delivery of the subject as a subject leader.”

Michael McDermott, PE Coordinator, Merritts Brook Academy

“I have developed personally, my confidence has improved and I have an action plan in place to help to progress and develop PE in my school. The school will benefit from my input and I will hopefully be able to help staff to deliver outstanding PE lessons. The children will ultimately benefit as they will be taught a balanced PE curriculum by teachers who can deliver outstanding lessons.”

Lucy Hall, PE Coordinator, Mount Pleasant Primary School

”

Impact made to the candidates schools

Our play time and lunch time activity has **increased by 20%** and we are in the process of employing 'Lunchtime Play Leaders' to encourage physical activity

Our session delivery has progressed from requires improvement to **Outstanding**

CHILDREN ARE MORE ENGAGED AND ACTIVE.

They are wanting to participate in extra-curricular activities which improves their behaviour and determination in other subjects (within the classroom)

The participation in after school clubs over the whole year for pupils who take part in two or more clubs a week has **increased by 35%**

We have recorded an **INCREASE IN PHYSICAL ACTIVITY LEVELS** in our targeted year groups
